INTEGRATED EMITTER DEVICES AND

INTEGRATED EMITTER DEVICES

RESPONSE TO RESTRICTION REQUIREMENT WITH TRAVERSE

MS Amendment Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

In response to the restriction requirement set forth in the Office Action mailed October 20, 2004, Applicant elects Group I (claims 1-10, 19, and 20) for continued examination with traverse.

The Examiner has restricted the application between Group I (claims 1-10, 19, and 20) and Group II (claims 11-18) stating that the product of Group I can be made by another and materially different process. Specifically, the Examiner has stated that the product could be made by a process that does not comprise "attaching an emitter to the substrate within a recess; or having a recess [sic]." Office Action, page 2.

A product and a process of making a product are distinct when the product as claimed can be made by another and materially different process. MPEP § 806.05(f).

Application No.: 10/661,054 Docket No.: 70020976-1

Applicant respectfully submit that the claim language does not support the Examiner's position.

Specifically, the method of claim 11 recites "attaching an emitter to the substrate within said recess" of a molded cup. The integrated optical emitter device of claim 1 recites "an emitter mounted to said substrate" and "a molded cup that surrounds said emitter and that is bonded to said substrate." Although claim 1 does not exactly parallel claim 11, the "mounted" element and the "surrounds" element of claim 1 are not materially different from the "attaching" element and "recess" element of claim 11. Accordingly, Applicant respectfully submits that the device of claim 1 cannot be made using a materially different process. Similarly, claim 19 recites a device having "an emitter mounted to said PCB" and "a molded cup that surrounds said emitter." For the same reasons, Applicant respectfully submits that the device of claim 19 cannot be made using a materially different process. The remaining claims of Group I depend either from base claim 1 or claim 19 and, hence, inherit all limitations of their base claim.

Accordingly, Applicant respectfully submits that a restriction requirement is not proper between Group I and Group II. Applicant requests the Examiner to withdraw the restriction requirement.

Applicant believes no fee is due with this response. However, if a fee is due, please charge Deposit Account No. 50-1078, under Order No. 70020976-1 from which the undersigned is authorized to draw.

2

I hereby certify that this correspondence is being deposited with the U.S. Postal Service as Express Mail, Airbill No. EV482738723US, in an envelope addressed to: MS Amendment, Commissioner for Patents, PO Box 1450, Alexandria, VA 22313-1450, on the date shown below.
